

Save Energy, Earn Money

Join us to learn about HSC's Pilot Program

Healthy Schools Campaign is partnering with ClearChoice Energy to pilot "demand response" programs to schools in Northern Illinois. This **no-cost** program will pay building operators to reduce their energy use on days when there is peak demand. Participating schools receive payments even if they are never called on to reduce energy use!

Come join HSC, ClearChoice Energy and the DuPage County Regional Office of Education to learn about these innovative programs and how your schools can earn money, manage risk, and be environmental stewards at the same time. Enrollment is available only once a year, so there is a limited time to participate. Applications are due Jan 31, 2009.
