

Implementing Green Cleaning Technology

The Blackhawk
Intermediate School
experience
July 18, 2011

Presentation Overview

- Technologies Implemented at BIS
 - What worked for us
- Integrating Green Cleaning into our budget
- Getting the cleaning staff on board
- Emerging Technologies in Green Cleaning

Green Technology at BIS

- Refillable hand soap dispensers
- Towel Dispensers
- Hydrogen Peroxide based cleaners
- Bio-based products
- High Dilution products
- Eraser Pads

Floor Care

- Microfiber
 - Color coding
- Floor Cleaning Systems
 - Split bucket
 - Integrated
- Abrasive pad floor maintenance program

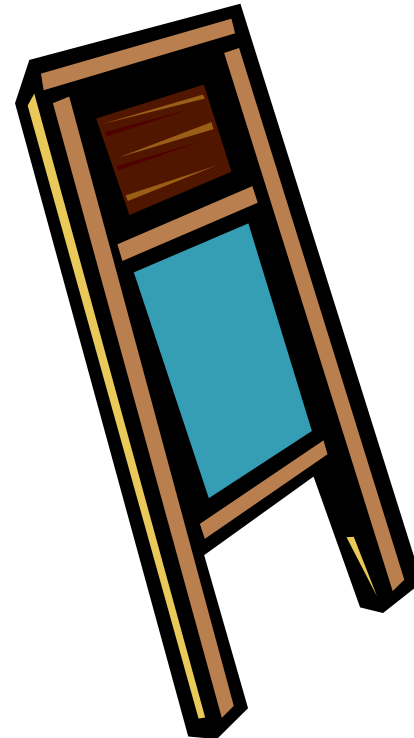

More Technology

- Touch Free cleaning system
- Chemical Free surface prep
- Vapor technology
- Liquefied ozone

Green etc.

- Cost effectiveness
 - Admin approval
- Staff
- New Technology
 - Thymol
 - Soy Composite
 - Silver-ion

A vibrant field of daisies under bright, sunny light. A large daisy with a yellow center and white petals is in sharp focus on the left. The background is filled with many smaller daisies, some in bloom and some as buds, creating a soft, bokeh effect. The overall color palette is bright green and yellow, suggesting a sunny day.

Thank You!
